

ABOUT OUR PROCESS

Pipe Dream Cleaners was created to help anyone that has ever tried cleaning their own pipes and, successful or not, has created a terrible mess and associated smells ... an experience that often ruins the whole experience of smoking.

The company founder, Jake Westling, has created a system that thoroughly cleans pipes of virtually any size, shape or complexity. And, he has now made the system available to you!

Our proprietary cleaning solution, coupled with a cleaning system that is tuned to remove even the most stubborn of residues within pipes, Jake's system leaves your pipes clean and completely sanitized, allowing you to enjoy the best of smoking experiences.
